

Jagadish Reddy Butukuri — Senior Data Engineer

jagad@email.com | 612-555-1234 | linkedin.com/in/jagadish | Minneapolis, MN

PROFESSIONAL SUMMARY:

- Senior Data Engineer with 8+ years building cloud-native pipelines on AWS and Azure
- Expert in PySpark, dbt, Snowflake, and real-time streaming with Kafka and Kinesis
- Track record delivering 30-40% pipeline latency reductions at Fortune 500 companies
- Skilled at translating complex business requirements into scalable data architectures
- Strong collaborator bridging data engineering and analytics engineering disciplines

WORK EXPERIENCE:

Senior Data Engineer @ Cargill | Minneapolis, MN

Sep 2023 – Present

- Designed cloud-native AWS pipelines processing 5TB/day using Glue, S3, and Redshift
- Built PySpark ETL frameworks reducing job runtime by 38% across 12 data products
- Led migration of 40+ legacy SQL jobs to dbt models, improving maintainability by 60%
- Implemented real-time Kafka consumers feeding 3 downstream ML feature stores
- Architected Snowflake data vault schema serving 200 daily active analysts
- Reduced data quality incidents 45% by deploying Great Expectations validation suite
- Mentored 3 junior engineers on best practices for distributed data processing

Technologies Used: AWS Glue, PySpark, dbt, Snowflake, Kafka, Redshift, S3, Great Expectations

Senior Data Engineer @ Target | Minneapolis, MN

Mar 2021 – Aug 2023

- Developed Airflow DAGs orchestrating 80+ daily batch pipelines for retail analytics
- Built streaming ingestion with Kinesis reducing reporting latency from 4h to 15min
- Optimized Spark jobs on EMR cutting compute costs by 120K annually
- Created self-service dbt models enabling analysts to ship insights 3x faster
- Automated data lineage documentation covering 150+ tables using OpenLineage

Technologies Used: Apache Airflow, AWS EMR, Kinesis, Spark, dbt, Python, OpenLineage

Data Engineer @ Best Buy | Richfield, MN

Jun 2018 – Feb 2021

- Built ETL pipelines in Python and SQL processing 2M+ daily product records
- Migrated on-prem Oracle workflows to AWS RDS reducing infra cost by 40%
- Developed reporting dashboards in Tableau used by 50+ merchandising analysts

Technologies Used: Python, SQL, AWS RDS, Tableau, SSIS, Oracle

TECHNICAL SKILLS:

- **Cloud Platforms:** AWS (Glue, EMR, Redshift, S3, Kinesis), Azure (ADF, Synapse), GCP (BigQuery)
- **Languages:** Python, SQL, Scala, Bash
- **Big Data:** PySpark, Hadoop, Hive, Delta Lake
- **Orchestration:** Apache Airflow, Prefect, AWS Step Functions
- **Databases:** Snowflake, Redshift, PostgreSQL, MySQL, MongoDB
- **Tools:** dbt, Git, Docker, Terraform, Great Expectations

EDUCATION:

Bachelor of Technology in Computer Science | JNTU Hyderabad | 2015
